From the Principal's Desk

Every person, sooner or later, goes through a moment on a situation when he realizes that he is on the wrong path, feels pointless & directionless. Interaction with the parents and students about their challenges, success and failures, enables us to enhance the true meaning and purpose of life. Failure follows failure and with repeated failure comes the fear of failure. It is true that there are few things within our control, whereas there are certain things which are beyond our control.

A series of event occurs in our life. what disturbs us is not the events, but our attitude towards them. You must learn to approach life as a banquet and not as a buffet.

To accept an event is to rise above it, to resent on an event is to be overpowered by it. With acceptance comes happiness, with resentment comes misery.

Thus, we strive to provide holistic development to our children where we guide students to develop intellectual capabilities, acquire knowledge and virtues and provide service before self. We do believe that every child is unique in nature. Therefore, by fostering a conducive environment full of love, care and creativity, we instill our children a desire to learn with emphasis on their social, emotional, physical, and intellectual development.
